Subject: S/045/045 - SMO-NOI

On 1/28/94 Mr. Gail Schmardebeck personally delivered the annual report for 1993 for S/045/045 White King/Dumpy Placer operation. At that time Mr. Schmardebeck requested an extension until February 28, 1994, for submission of the SMO-NOI. I told him that I did not see a problem with granting that extension.

A letter from the Division to the BLM Pony Express Resource Area dated November 23, 1993, was "cc-ed" to Mr. Schmardebeck. The letter reclassified the exploration operations as an SMO and requested submission of a new SMO-NOI from the operator. No deadline was given for submission of the NOI. BLM file number U-72259.

Wayne please let me know if there is any problem with this extension.
